Bone-Joint Formula

Yucca Root Powder

Long tradition of use by Native Americans on broken bones and sprains, as well as to help avoid inflammation and stop bleeding. High content of steroid saponins, which are precursors to cortisone. Useful in relieving arthritis and rheumatism. High in bone building minerals calcium, potassium, iron, manganese and copper. Rich in vitamins A, B-complex and has some vitamin C.

Glucosamine HCL

Excellent joint support and well established to be effective for joint-related conditions such as osteoarthritis and rheumatoid arthritis, knee pain, back pain and even glaucoma. Promotes optimum support for joints and cartilage function, strength and mobility. Helps to rebuild worn joints, lubricates stiff joints and soothes inflamed joints.

Burdock Root Powder

Excellent blood purifier, helping clear blood of harmful acids such as uric acid. Promotes kidney function, flushing out toxic waste. Can reduce swelling around joints and rid the body of calcification deposits. Good for arthritis and rheumatism, and helpful in cellular regeneration as well as gout and sciatica. High in lignins, magnesium and copper.

Acerola Cherry Extract 4:1

One of nature's highest sources of vitamin C and has a carotene content comparable to carrots. Used for inflammation and arthritis. Helps flush uric acid out of tissue, relieving gout. Has anti-aging benefits as well as compounds that prevent tooth decay.

Celery Seed

Powerful acid neutralizer which aids in relieving rheumatism. Can be effective in relieving different types of arthritis and gout. Can help reduce muscle spasms, inflammation and calm the nerves. Lymph cleanser.

Devil's Claw Root

Proven to positively affect arthritis, rheumatism and arteriosclerosis. Relieves inflammation and stops pain. Produces a generalized feeling of strength. Good blood purifier. Also aids deep tissue cleansing of toxic impurities in the body and lymph. Contains natural analgesic compounds.

Chondroitin Sulfate

Component of human connective tissues found in cartilage and bone. Helps reduce pain and inflammation, improve joint function and slow progression of osteoarthritis. Produces glycosaminoglycans which neutralize enzymes that cause the degeneration of joint cartilage and formation of bony spurs within various joints. It delivers compounds and fluids that cushion bones and joints.

Black Walnut Hulls

Contains K2 which activates proteins in bones. Known to restore tooth enamel and strengthen bones and teeth. High in magnesium, silica, calcium, phosphorus and potassium.

Alfalfa Leaf Powder

Rich in bio-available calcium and helps the body assimilate calcium and other nutrients that play a vital role in the strength and growth of bones and in the maintenance of a healthy body. Also known as an alkalizing plant. Rich in vitamins A, K and D.

Borage Leaf Powder

Contains potassium and calcium, and is a good blood purifier. Known as an anti-inflammatory and can be effective relieving rheumatoid arthritis. High concentration of gamma linolenic acid (GLA). High silica content helps hair and nails grow and teeth and bones maintain strength and good density. Like comfrey, the leaves are traditionally used to bind broken bones.

Comfrey

Known as a wound-healer and bone-knitter. Feeds the pituitary with its natural hormone and helps strengthen bones. Helps in calcium/phosphorus balance by promoting strong bones and healthy skin. Can be used internally and externally for healing of fractures and wounds. Can be effective in relieving arthritis. Has remarkable ability to facilitate rapid healing of virtually all tissues and help heal broken skin, broken bones, torn muscles, tendons or ligaments, and just about anything else with great speed.

Ginger Root Powder

Known to enhance effectiveness of other herbs when in combination. Can be effective in relieving arthritis and rheumatoid arthritis. Acts as a powerful anti-inflammatory and pain reliever.

Lobelia Herb Powder

In combination with other herbs, helps to repair fractured, broken or cracked bones. Aids in increasing bone density. Known to help relieve arthritis and rheumatism.

Aloe Leaf Powder

Alkalizing and rich in vitamins and minerals. Contains glucosamine which is a natural compound found in cartilage and offers healing for bones, flesh and cartilage. Has anti-inflammatory compounds that boost collagen levels. In combination with other herbs, it aids the body's natural healing processes so the body can rebuild itself at a much faster rate. For joints affected by arthritis, reduces inflammation, relieves soreness and repairs joints. It also supports the auto-immune reaction when the body attacks its own tissue as happens with rheumatoid arthritis.

Spearmint Leaf Powder

Good source of iron, magnesium, calcium and other minerals helping keep bones strong. High in vitamins, antioxidants and vital nutrients. Soothing to nerves, effective in relieving arthritis pain.

Shavegrass (Horsetail) Herb

Rich in silica and selenium. Has strong anti-inflammatory properties. Good for improving a number of health conditions including brittle bones, hair, teeth and nails, white spots on nails, rheumatic disorders and osteoarthritis. Known to help heal broken bones and fractures, particularly torn cartilage, tendons and ligaments. Also known to strengthen the body's immune system. Think of it as an internal cosmetic.
