

Herb Power 21

The Challenge

People are deprived of the nutrients that are essential for cells to function properly. Our vitamin- and mineral-depleted food supply does not provide the nutrients for these functions.

Normal cells have many functions such as
take in nutrition • maintenance • eliminate waste and toxins

Cells must also protect themselves from
unfriendly bacteria • fungi and viruses • free radicals and
repair damage done by them

Vitamins and minerals in most supplements are made from isolated, industrial chemicals and ground up rocks processed with acids. Those supplements do not contain the protein chaperones or other food factors needed for cellular absorption. These substances actually become toxic chemical residue in cells.

The Solution

The herbs in our flagship product - **Herb Power 21** which has a track record of over 30 years of satisfied customers - contain all known natural vitamins, plus over 30 essential and trace minerals, amino acids and natural proteins, all in food form - NOT isolated, synthetic chemicals. The herbs work synergistically to promote the health and wellness of every cell, organ, and system of the body in a complex wave of high energy.

Other Herb Power 21 Benefits Include

- 100% food • Renders maximum food fuel • Multi-purpose/multi-vitamin/multi-mineral
- Ideal for work outs • Great for everyday lifestyle • Caffeine not needed for waking up

Because of the Standard American Diet (SAD) and poor farming practices, most people have little vitamin absorption from food. Therefore, **Herb Power 21** delivers a punch of vitamins made absorbable with a high quality probiotic - acidophilus - a good gut bacteria. To stabilize the good gut bacteria, **Herb Power 21** has yellow dock which contains inulin, a prebiotic, i.e. food for the probiotic. Many probiotic formulas do not contain prebiotics, causing probiotics to have no food source and hence, not surviving long. **Herb Power 21** renders a complex wave of high energy by feeding 100% whole food nutrients to every organ and system in the body, providing multivitamin and mineral support. The herbs work synergistically to cleanse, balance and nourish the body with life-giving nutrients.
