

# Think Smart

Protect and Boost Brain Power  
with Think Smart Herbal Formula!

## ***The Challenge***

Memory loss and poor concentration challenge many adults as well as children. The hippocampus - a region of the brain where formation and retrieval of memories is located - becomes poorly functioning or deteriorating! A lack of vital bio-available nutrients in the standard American diet (SAD) creates imbalances in the hormones, amino acids and neurotransmitters needed to protect and repair brain cells; peak brain health becomes compromised. Decreased blood flow to the brain often occurs, which can further impair memory or lead to changes in cognitive skills.

## ***The Solution***

**Think Smart** is a synergistic proprietary blend of functional super herbs and food compounds formulated to positively influence brain health. These herbs act as cognitive enhancers and nourish and protect the brain, improving mental abilities including memory, focus and clarity.

## ***Other Benefits Include***

- Promotes relaxation
- Increases concentration
- Rejuvenates aging brains
- Elevates and stabilizes mood
- Enhances learning and retention
- Protects and regenerates nerve cells

## ***The Testimonies***

We have customers all over the United States benefiting from Think Smart!

Greg

Think Smart helps me with my pastoral studies and preparing my sermons. It always helps me focus and concentrate during prayer.

Theresa

Think Smart has helped me to do my job underwriting mortgages with clarity of mind and much more focus.

Barbara

I really like Think Smart. It keeps me sharp for my real estate job and increases my memory.

## Think Smart

Do your brain a favor! Energize and enhance the functioning of your brain, no matter what your age is! Because of nutritional challenges, memory loss & poor concentration challenge everyone these days. Think Smart is specifically formulated to address these challenges and to positively influence your brain's health!

### Acetyl-L Carnitine

- Enhances brain health
- Provides stress tolerance
- Promotes cognitive health
- Provides energy to brain cells
- Protects & regenerates nerve cells
- Helps prevent toxins from entering brain cells
- Helps brain metabolize fat & cholesterol to prevent clogging of brain function

### Phosphatidylserine

- Nourishes brain cells
- Helps energize the brain
- Enhances learning & retention
- One of the top brain nutrients
- Improves concentration & focus
- Boosts short-term memory & mood

### Ginko Biloba

- Enhances oxygen usage in the brain
- Increases blood flow to the brain
- Improves memory & concentration
- Antioxidant ability improves nerve function
- Helps relieve Alzheimer's, cerebral insufficiencies, atherosclerosis, dementia, tinnitus, & vertigo

### L--Glutamine

- Stabilizes mood
- Increases concentration
- Raises mental & physical energy
- Supports brain to handle stress
- Decreases unhealthy cravings for sugars
- Provides feeling of sharp mind & alertness

### Gotu Kola

- Rebuilds energy reserves
- Combats stress & depression
- Supports healthy memory function
- A rejuvenating herb for nervous disorders

### Rhodiola

- Increases mental endurance
- Promotes healthy brain aging
- Increases focus & reduces stress
- Enhances brain's ability to absorb nutrients

### Eleuthero

- Improves learning & memory
- Improves mental performance
- Protects brain from damaging effects of stress
- Helps brain cells access nutrition & oxygen

### DMAE

- Elevates mood
- Improves memory & learning
- Contributes to brain function maintenance
- Safe alternative for Attention Deficit Disorder (ADD)
