MODALITIES Fee Schedule

Research and development indicates that the majority of health problems affecting Americans today, both physical and mental, are nutritionally based or medication-induced or both. We endeavor to identify the cause and then implement resolution by diet modification, and nutritional supplements that help restore to the body what has been lost or omitted in the diet. Also, we encourage body and organ detoxifying, and simple lifestyle changes.

When guided by a Doctor of Naturopathy, an individual may expect significant increase in life condition by implementation of the self-rejuvenation and body regulation process naturally. To accomplish these goals, the Better Health has implemented the following health modalities:

Wellness Consultation – 20 minute session.....	\$35.00
